PAPERBOY

LCD VIDEO GAME

1 THE PAPER BOY 2 STORY

It's early morning and the birds are singing. The familiar "twap!" could only mean one thing—the PAPER BOY is in town. Through sleepy eyes, you deliver newspapers to your loyal customers. While this may sound like an easy job, you'll need to use all your riding skills just to survive your route through the jungles of suburbia.

At the end of each day, your hard-nosed boss reviews your performance. If you did well, you get to wake up bright and early the next day and make your rounds again. If you didn't make the grade, maybe there's a job for you down at the local fast-food restaurant!

2 INSERTING THE BATTERIES

To insert the batteries, remove the battery compartment cover at the back of the game. (To remove cover, push in direction of the arrow.)

Insert two "AA" batteries, UM-3 or equivalent (not included), making sure to align "+" and "-" as shown.

Do not use rechargeable batteries.

After battery insertion, the ACL switch may be pushed only if the game doesn't work properly. (Use a ball-point pen.) The display should appear as in the diagram below.

3 CAUTION

High temperature will destroy the unit. Do not leave unit in direct sunlight.

Do not press the liquid crystal display and avoid heavy shock or the display may fail.

Do not use a pencil or pin to press the ACL switch. Use a ball-point pen.

Clean only with a piece of soft dry cloth.

Replace batteries at the first sign of erratic operation.

4 THE OBJECT OF THE GAME

You are a paperboy extraordinaire! Your objective is to deliver as many newspapers as you can! However, if you miss 5 or more deliveries in a day, then you're fired and the game is over!

Being a paperboy isn't easy! You begin the game with 3 lives. Each time you crash into an obstacle, you lose a life! If you lose all 3 of your lives, the game is also over!

Deliver as many newspapers as you can! You'll score points for each successful delivery! You can also throw papers into a non-subscriber's house or into a non-subscriber's 2nd floor window!

There are 7 possible working days! However you have to be skilled to avoid getting fired! You'll be fired and the game ends if you miss on 5 or more deliveries on any day!

You begin the game with 3 lives. But being a paperboy is risky business! There are many obstacles on your path! Each time you crash into an obstacle, you lose a life. The game also ends if you ever lose all 3 of your lives due to crashes!

You WIN THE GAME if you can deliver papers for all 7 days of the week.

Dodge all obstacles! Throw newspapers into as many houses as you can to score points! Subscribers have paperboxes. Non-subscribers don't. Subscriber houses score you more points!

Pick up extra bundles of newspapers! You score more points and increase your number of newspapers!

8 HOW TO PLAY

Press the ON/START button to turn on the unit. You'll hear an "On" beep and the highest score retained is displayed.

Press the ON/START button again to start the game from stage 1! Stage 1 (-1) is displayed. You begin of course, with zero points. You also begin with 10 newspapers and 3 lives.

As you ride your bike, you want to steer clear of obstacles! When you crash into an obstacle, you lose a life! If you ever lose all 3 of your lives, the GAME IS OVER.

You also lose the game if you miss 5 or more deliveries on any day! At the end of such a day (at the end of the stage) you'll be fired and receive a GAME OVER.

There are 7 stages. Each stage refers to a day of the week. Your goal is to try to deliver papers for all 7 days of the week!

There are a total of 40 houses. You start your first day (Monday) with 10 subscribers. If you don't miss 5 deliveries or use up your 3 lives, you'll be able to move on to stage 2 (Tuesday). You'll move on to the other days just so long as you never lose your 3 lives—and if you don't have as many as 5 misses on any day!

Each time you're able to move on to the next stage day, you automatically gain 5 new subscribers! So if you do well the first six days, you will have all 40 houses as subscribers!

Your obstacles will vary from day to day:
